FLEXTIME POOL LEAGUES

Run a pool league that runs itself.

Players schedule their own matches, score them on any phone, tablet or laptop, and see their stats right away. The software keeps the handicaps, schedules, payments and reminders up to date, so you can spend your time on the players.

No software bill

Players pay a $25 annual membership. You pay nothing for the software.

The busywork is automated

Handicaps, schedules, payment tracking and reminders take care of themselves.

Players keep coming back

Stats, badges and flexible scheduling keep people playing season after season.

Works on anything

Any phone, tablet or computer with a web browser. Nothing to install.

Running your league

Set it up once. The system handles the day-to-day.

Flexible match scheduling

Players arrange their matches when it suits them, so people with busy or changing schedules can still play a full season.

Automatic schedule creation

Build the season schedule in a few clicks, without spreadsheets.

Automatic, accurate handicaps

Handicaps update after every match from the inning-by-inning scores, and a daily check catches anything out of order.

Results in real time

Standings, schedules and stats update the moment a match is saved.

One location or many

Run a single room or several locations, each with its own seasons.

Admin tools for the odd case

Add or correct a match, bring in a replacement for a player who quits early, or withdraw a player mid-season, all from your screen.

Money, handled

Electronic payments

Players pay by Zelle, Cash App or Venmo. Their payments are picked up from your payment notification emails and credited automatically.

Payment tracking

See at a glance who has paid, who owes, and how much.

Payouts your way

Set match fees and how prize money is split. Players choose whether to be paid or roll their winnings into next season's fee.

Annual memberships

One yearly membership covers every season, which encourages players to stay active all year.

> **The business model is simple:** players pay a $25 annual membership that covers every season. You take your cut out of the match fees, and you don't pay for the software.

Keeping players coming back

Full seasons, fewer dropouts, and an easy way back in for past players.

Reminders for players who fall behind

Players who slip behind schedule get a friendly email nudge so you don't have to chase them.

Next-season sign-up survey

Before a season ends, players are asked whether they're coming back and what to do with their prize money. You see the answers in one list.

Your own mailing list

Past players and new sign-ups are invited to each new season automatically, with an easy unsubscribe.

"Join a League" sign-up page

Newcomers can tell you they're interested, and they're added to your list.

Stats, charts and badges

Players who can see themselves improving keep playing. Badges reward milestones in league play, non-league play and practice.

Announcements

Email everyone in a season, or just the players you pick, from inside the system.

What your players get

An experience that makes your league the one people want to join.

In your league

League seasons are played in Straight Pool.

- ✓ **Fair, accurate handicaps** so every match is competitive
- ✓ **Standings, schedules and season stats** that update the moment a match is saved
- ✓ **Prize money**, paid out or rolled into next season's fee
- ✓ **Pay online** by Zelle, Cash App or Venmo

Any time, in seven games

Non-league matches and practice, for members whether or not they're in a league season.

Straight Pool | 8-Ball | 9-Ball | 10-Ball | One Pocket | K-Ball | Golf

- ✓ **Inning-by-inning scoring** in all seven games
- ✓ **All-time stats**, and optional extended stats for players who want more detail
- ✓ **Filters** by season, date range, player, opponent or a single stat (high run, balls per inning and more)
- ✓ **Over 20 charts and 7 reports**, from handicap trends to head-to-head records
- ✓ **Badges** for accomplishments in league play, non-league play and practice
- ✓ **Practice drills** with scoring and progress tracking
- ✓ **Player profiles** with photos
- ✓ **Saved preferences** that speed up match setup
- ✓ **Unfinished matches are saved**. Pick up later, or move the match to another device if the scorer has to leave.
- ✓ **Instant access** to the rules of the games

Works on any device

Phones, tablets and computers

iPhone, Android or Windows. If it has a web browser, it works. Nothing to download or install.

Attractive and easy to use

A clean, simple layout means players figure it out quickly and you get very few support calls.

The tedious jobs, automated

- ✓ Handicap calculations after every match
- ✓ Payment matching from Zelle, Cash App and Venmo emails
- ✓ Behind-schedule reminder emails
- ✓ Membership renewal reminders
- ✓ Next-season survey and mailing-list invitations
- ✓ Daily data checks that flag anything out of place
- ✓ Alerts when a match is entered out of order
- ✓ Clean-up of matches that were started and never finished

Start a league with Flextime Pool Leagues

See it in action and find out how quickly you can be up and running.
