

Customers say

Customers find the leather repair tape easy to work with, taking about 15 minutes to apply, and appreciate that it makes furniture look brand new. The product receives positive feedback for its quality and effectiveness, with one customer noting it works best on flatter surfaces. The adhesive quality and durability receive mixed reviews - while some say it stays firmly in place and lasts for years, others report it doesn't stick well and starts peeling off. The color match and value for money also get mixed reactions, with some customers saying the color is a great match while others disagree, and some finding it worth the price while others say it's not worth it.
