The Billiard Tour Shot Contest Format:

Players will shoot only 8 diagram shots. Each player will shoot each of the 8 shots 3 times (24 shots total). Each shot is worth 1 point (24 pts max) and the total number of points wins. Three small round dots (stick-ons) will be placed on the table, which will represent the exact placement of the diagrammed shots. All players will have the same shot and same placement of the 3 balls. Then the dots will be removed and replaced for the next shot selection.

Special Note: After each shot a player will have a straight rail carom shot as the balls come to rest. If they make it, it will be worth 1/4 point added to there previous scores. This means that the maximum possible score will be 30 points if they made every shot. **Have fun and enjoy the Roll!**
