

"Having a shot is not
the same as having a
run out."

High Run Society

Break Shot Variety Training

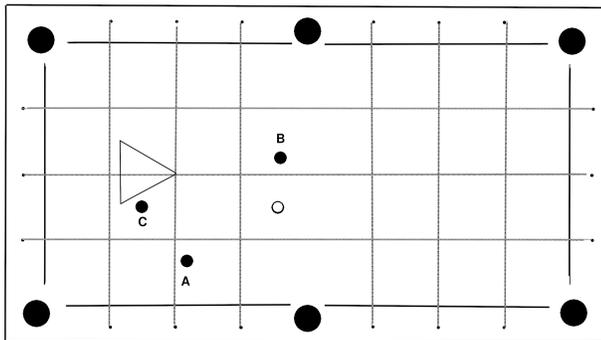

Author DAN HARRIMAN

Four ABC runouts are shown. None of the diagrams identify the best areas of position. Your responsibility as a student is to explore the layout until you can find the stroke for the ideal positions.

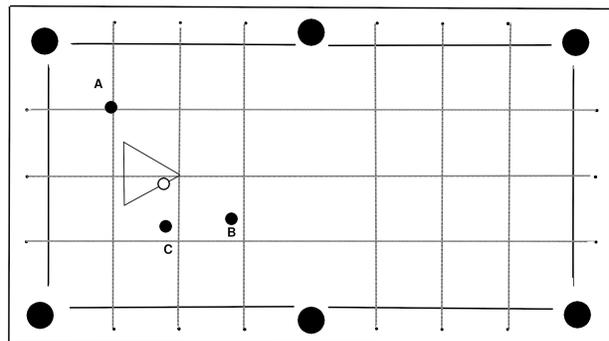

Included on the second page are blank table layouts. You can use them to track and measure your misses. If you notice the same issue multiple times, then its likely you have an issue to correct. You can submit it on forums.azbilliards.com in the 14.1 section. There are many talented and responsive users in that specific area of the forum.

Championship Coaching

Author DAN HARRIMAN

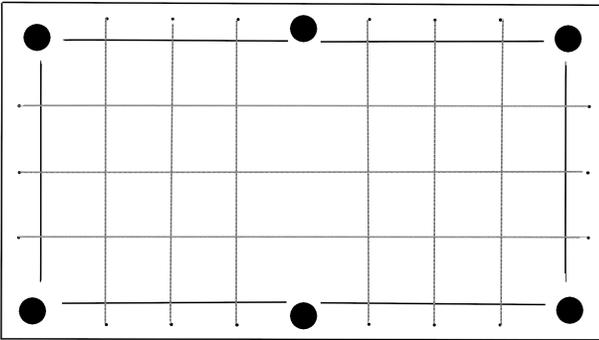

The first place to be a champion is studying film, studying diagrams, and practicing on the table. Too many pool players show up to a match hoping to shark an opponent or win with less than ideal preparation. Train your mind to recognize common patterns and learn how to play them. Its called practicing, practice these shots until you mastered them.
