

## EasyFit™ : How to fit an ArtScape™ layout

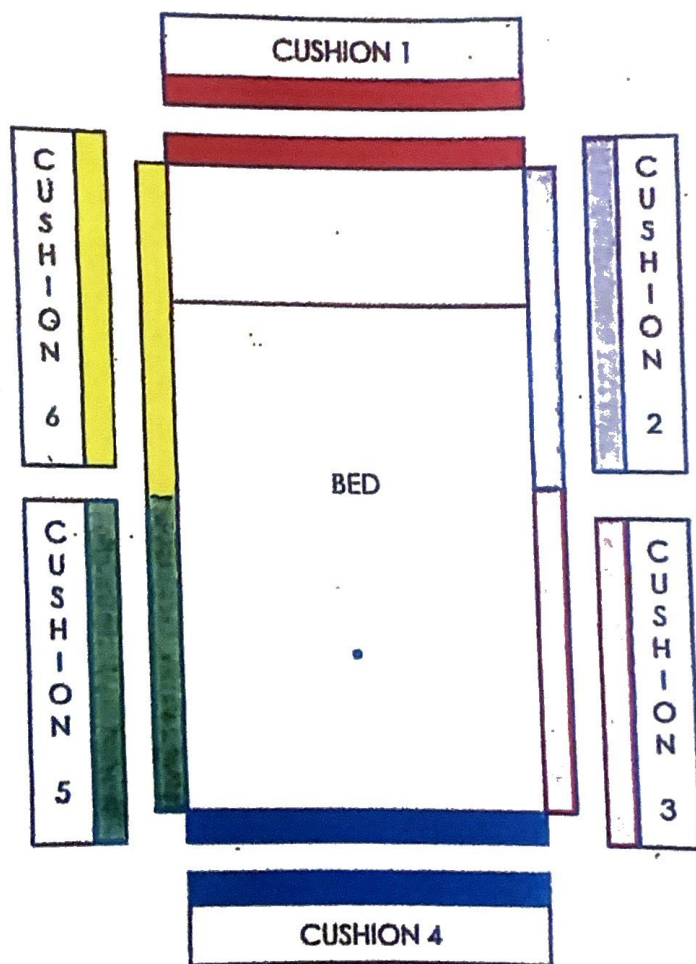

Your ArtScape pack includes the following: 1 bed cloth  
6 cushion/rail cloths

Please fit these cloths as you would any standard cloth whilst trying to minimise image distortion.

The cushion/ rail cloths have been specially printed to coordinate with the bed cloth design. This means the different cushion/ rail cloths need to be used on specific cushions for the design to be complete and effective.

For simple fitting we have introduced a unique colour code system so that cushion/rail cloths can easily be matched with the right cushion/rail.

Simply match up these colours to ensure a trouble free installation.

We always recommend using a qualified pool table fitting service. For more information contact your supplier.
